"BEATEN TO A FRAZZLE"

Beckham Has His Two Opponents, Say Congressmen From Kentucky

Even in Washington the members of Congress, have the running from Kentucky and for the winner in senatorial primary. A dispatch to the Cincinnati Enquirer this week said:

Washington, May 17.—That former Governor J. C. W. Beckham will be nominated for Senator by the Democrats of Kentucky, hands down, all three of the candidates now in the running continues in the race, is the opinion of practically the entire Kentucky Democratic delegation in Congress.

A canvass of sentiment in the delegation today found that although some of the members are not in sympathy with the candidacy of Beckham, they are substantially a unit in the belief that he has got his opponents "beaten to a frazzle."

"I must not be quoted, either publicly or privately," said a prominent member of the delegation, "but there will be only one outcome to the senatorial contest if Governor McCreary and Representative Stanley both continue in the race, and that is that Beckham will be nominated by a sweeping majority. There is only one possible way to beat him, and that is by the withdrawal of either McCreary or Stanley, and I doubt if it can be done even then."

Another prominent Kentucky member said: "Beckham will be an easy winner, in my opinion. The masses of the Democrats of the state undoubtedly are for him."

The same sort of opinion was given by nearly all the Kentucky Democrats who are high in official circles here.

For several days rumors have been rife that either McCreary or Stanley would withdraw, but when these have been run down it has appeared, in every case, that the wish was father to the thought and that the idea emanated from some one who wanted to see Beckham beaten and who believes it cannot be done without a union of McCreary and Stanley forces. Even then it is doubtful whether the one withdrawing could deliver his forces to the other as against Beckham. Instead of withdrawing both McCreary and Stanley seem destined, as far as can be learned, to stay in the race and take the count.

The statesmen and politicians at Washington see that the Kentucky senatorial race has proceeded far enough to indicate that Beckham cannot be headed off.

Word has come to Washington that Marshall Bullitt, of Louisville, positively will not allow his name to go before the primaries as a candidate for the republican senatorial nomination to succeed Senator Bradley.

In Wyoming, Colorado, Utah, Idaho, California, Washington, Oregon, Kansas, Arizona and Alaska women have full suffrage. In Illinois women vote upon practically all questions, except for members of the state legislature. This means that in the next presidential election nearly four millions of women will be enabled to voice their preference for the president of the United States, and may be a determining party factor.

A Straw Vote in Garrard
J. R. Mount, representative from Garrard county in the last legislature, and experienced observer of political conditions, is in the city today on a short business trip. Mr. Mount said that in his community, the Beckham stampede has become a rout, and that there will be few votes for any one but the former governor cast, according to present indications. Mr. Mount bases his conclusions on an impromptu straw vote taken at Lancaster a few days ago. Which showed 134 votes for Beckham, 11 for Stanley and 7 for McCreary. The county organization has been captured almost to a man, says Mr. Mount.—Lexington Leader.

Mrs. Mona Dunn Dead
Mrs. Mona Dunn, of Danville, died at the Danville and Boyle Hospital, on Wednesday afternoon, after an illness of only a few days. She was 70 years old and had been a devoted member of the Christian church. The deceased is survived by three children, Edgar Dunn and Miss Ella Dunn, of Danville and Thomas Dunn, of Texas. The funeral was conducted at the Christian church Thursday afternoon at Danville.

Davenport—Miller
Miss Bessie Davenport, daughter of I. W. Davenport, President of the Danville Bank, and Ella Miller, of Adair county, were married last week at Columbia. The bride is a talented young lady and the groom is said to be a splendid young man.

ENDORSED AT HOME
Such Proof as This Should Convince Any Stanford Citizen

The public endorsement of a local citizen is the best proof that can be produced. None better, none stronger can be had. When a man comes forward and testifies to his fellow citizens, addresses his friends and neighbors, you may be sure he is thoroughly convinced or he would not do so. Telling one's experience when it is for the public good is an act of kindness that should be appreciated. The following statement given by a resident of Stanford, adds one more to the many cases of Home Endorsement, which are being published about Doan's Kidney Pills. Read it.

"I, D. Aldridge, blacksmith, E. Main St. Stanford, Ky., says: 'I had pains through my back and the kidney action was irregular. I did not sleep well at night. When I heard about Doan's Kidney Pills, I used them. They soon strengthened my kidneys and stopped the pain.'"

Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the name is on the wrapper. Mr. Aldridge had, Foster-Milburn Co., Props., Buffalo, N. Y.

HOW CHILDREN GROW

Children grow by nourishment—no overloaded stomachs or rich foods but qualities that are readily converted into life-sustaining blood; too often their digestive powers cannot procure these qualities from ordinary foods which results in weakness, dullness and sickness.

If your children are under-size, under-weight, catch cold easily, are languid, backward, pale or frail, give them Scott's Emulsion which is pure medicinal nourishment. It sharpens the appetite, builds healthy flesh, firm muscles and active brains. Scott's is growing-food for children. Refuse alcoholic substitutes.

"The Greatest Kidney Remedy on Earth," Says a Grateful Woman

I want to tell you how much good your Swamp-Root did me. About four years ago I suffered from what the doctors called fistula and for two years of that time, I endured what no tongue can tell. I also had inflammation of the bladder and I tried doctors medicines without receiving any help. Someone told me about Dr. Kilmer's Swamp-Root.

After giving it a thorough trial, I received relief, so keep on using it and today I am a strong and well woman. I never feel badly or out of sorts. I take Swamp-Root and it always strengthens me out. I honestly believe that this medicine would cure all troubles you recommend it for and it is a pleasure for me to send my testimony and photograph to you. I think Dr. Kilmer's Swamp-Root is one of the greatest medicines on earth.

Respect yours,

MRS. J. O. BAILEY.

The several days of dry weather that prevail at present are a blessing to farmers in this section. Corn planting was getting late, and but few of them had planted any, up to last week, but they have got in good time since then, they are admitted, and most of them are about through.

Those who know say that 99 per cent of the democrats in this county are for Beckham for United States Senator, and are working hard to convert the other one per cent to their way of thinking. Stanley is said to have two supporters in the county and McCreary's followers will not average one to the voting precincts in the county.

Beckham's upright conduct and the disgraceful manner in which he has been treated has placed him mighty close to the hearts of honest democrats of Kentucky.

Golden Dawn Springs, at Yosemite will have a formal opening Saturday, May 23rd. A brass band will be on hand, to make music for the occasion and there will be various other attractions for the entertainment of the people. Mr. and Mrs. M. P. Kenney will have charge of the hotel and the springs, this season and they are said to be the best of hotel people and predict for them a prosperous business throughout the summer.

Our old friend W. T. Coulter, who spends most of his time on the banks of Green river fishing for snappers says he has not been able to obtain suitable bait for some time. He employed Charlie Spears and Dr. J. M. Haney to furnish him with crawfish tails, and right in the midst of the fishing season they went on a strike. He admitted that he had hired them too cheap, and was willing to arbitrate their differences.

Dave Skinner, of Stonegap, Va., is here on his yearly vacation and is looking over the country and is looking for a place to build a house.

Why can't we have our town cleaned up as some of the alleys, as well as places on Main street are in bad looking condition? A visit by the president of county board of health would be very acceptable in our midst and have some little work done. Our side walks are crowded with machinery, until it is dangerous for pedestrians to walk along for fear of running over a barrel or something else of the kind. We face an ordinance forbidding such and it seems that our city fathers could order the marshal to have same removed at once and make our streets have a more decent appearance.

The fine grass seed crop promises to be a fine one, if we can have a good rain at once, so as to bring it up higher to the strippers can be used.

Everybody is as busy as bees planting corn and plowing over what has been planted. Corn is coming up splendidly this time, which is a great thing for the farmers, as seed is awful high this time.

Strawberries are being brought in now and are something fine. With a good rain now the crop will be a large one.

The cherries have most all fallen off this section, due to the late frosts in blossoming time, it is thought.

Mrs. E. D. Simpson, of Lancaster, returned to her home the first of the week after a visit to her sister, Mrs. P. S. Powell, who has been quite ill for some time, but is resting quietly at present.

Rev. Maddox, of the Baptist church, is back home after a week's visit to Nashville, Tenn.

There are the finest lot of tobacco plants in this section that was ever seen, and a large crop is expected to be put out this season, if the weather will permit right away. There is a large lot of land all ready for setting, as soon as a season can be had and lots of land still being prepared for a crop.

A lot of our citizens went fishing on Tuesday in Green river, and were well down with their trip as they succeeded in catching some awful nice ones and more have gone today to try their luck with the finny tribe.

Washington, May 21.—After frequent fluctuations between improvement and depression the condition of Senator Bradley, who was stricken yesterday with acute indigestion, was pronounced desperate at a late hour tonight. What the morning hours might bring forth his physicians were not prepared to predict. So critical was his case tonight that Dr. Lewis A. Walker, the attending physician, called Dr. James E. Mitchell into consultation and for a long time they worked over their patient. Dr. Walker had been in attendance or within call throughout last night and all today, and expected to remain on duty in the sickroom or nearby until tomorrow also.

Stop that waste

THE stalks and husks from your corn crop represent just so much life taken out of your soil. If you do not use them for feed and return them to the ground in the form of fertilizer you are getting poorer every year. If your fields and barn yard are littered with stalks and your ground is growing less fertile season after season you need an

INDIANA SILO

It will convert all your corn from the ground level to the tassels, into fresh, succulent feed and it will keep your cattle in prime condition all year round. Best of all—it will pay for itself out of what it saves for you in a single season. There will be another winter before long, with high priced feed and hard work in zero weather. Why not get ready for it by erecting an Indiana Silo before next harvest time.

We've got a mighty good proposition to make to you right now—a money saver. Give us a chance to tell you about it.

FAMOUS ONE-HORSE SHAY

Has a Close Rival in Backboard Owned by Col. Uriah Dunn

Col. Uriah Dunn, the veteran horse and mule dealer of the West End of Lincoln county, drove into Hustonville from Harnwell, S. C., last week in the old one-horse shay which he drove to the southern market exactly forty years ago. During all the length of time he has used it in his selling operations in the southern city, seven months out of the year, and from its appearance Monday to Danville in the Danville by an L. J. representative, it appears good for about forty years' further service.

Forty years ago, according to Mr. Dunn's story of the ancient vehicle, he had it made by a buggy manufacturer in Versailles. It is a handsome vehicle and notwithstanding its hard usage and the two long trips it has made from Hustonville, Kentucky, to Harnwell, South Carolina, the first in its youth and the return in its old age—and has "died up" splendidly and looks fair to stick together for another couple of score of years. Mr. Dunn says that he has only had to have a few new spokes put into the wheels in the way of repair during all that period of time.

He has been turned over to a ditch once or twice, but has never had a serious accident with it. The nearest he has come to having a bad accident, happened as he drove from Hustonville to Danville in the Danville Monday morning, when a mare he was driving, which was using one of his fields between Middleburg and Shelby City, the animal forced the vehicle over against a fence and the mare, which threw the seat forward and Mr. Dunn out between the body of the vehicle and the wheel, catching him in such a way that he was unable to release himself, and had he not had nerve enough to hold on to the reins, until Mr. Sandridge could come to his assistance, might have sustained a serious injury instead of just being shaken up.

Mr. Dunn says that he expects to hold out for a while longer, but he is not naturally drops to pieces all at once. When Mr. Dunn drove in from South Carolina the other day, the wheels were one solid cake of mud, frozen between the spokes, caused by the heavy mountain roads of North Carolina and Tennessee see he says.

DAM—Mason girl, Registry No. 48689. A beautiful black mare weighing 1,800.

He will make the season at my farm at Knobel Station, Lincoln county better known as the "Sowell Given farm," at

Two Great Stallions
Standing at Hustonville

I will stand the two great draft horses WATZMAN and FRENCH for the season of 1914 at my farm near Hustonville, at the low sum of \$10 each to insure a living colt.

Watzman is an imported German coach horse. He sold for \$3,000 originally. I have used him two seasons and his colts show for themselves what he can do, all coming large size and with lots of style. His colts show too well what he does, to need an extended description.

French is a Percheron, and a Company horse originally and sold for \$2,400. I bought him in Metcalfe county, where he has done splendid work in the stud. He produces splendid colts, the big stylish fellows with fine bone and shape. He will attract attention anywhere and is the kind of a breeder owners of mares are looking for. He weighs 1,800 pounds and gets colts like him.

I also have two or three fine, big mule breeding jacks which I will also stand at \$12 and \$10.

Ford
The ideal car for a progressive business man; it brings the farm close to town. The car that is worth all you pay for it as a business proposition, with the luxury and pleasure thrown in. The car that gives its owner no regrets for the amount of money he paid for it. The car that is sold in larger numbers than any car in the world. There is a reason for it. Be wise and profit by others' experience. When you want a car, buy a Ford.
